

# ***PRIORITY PRECISION SHAFT REPLACEMENT***

The Quality You Expect.  
The Lead Time You Need.

You want minimal lead times with top quality. That's why we offer OEM replacement shafts in as little as 5 days. With our Priority Precision Replacement Program, you get swift and reliable access to the quality components you need.

## **Quality Assurance with Unmatched Precision**

At SPX FLOW, we recognize the significance of maintaining the integrity of your equipment. Our program proudly replicates your mixer's original specifications with uncompromising precision. By utilizing your mixer's original design, we ensure that each shaft is manufactured to our OEM standards, safeguarding the seamless operation of your mixer. It's a level of assurance that only comes from working with a genuine OEM brand.

# PRIORITY PRECISION SHAFT REPLACEMENT

## Engineering Excellence for Optimum Performance

The success of your applications depends on the performance of your mixer's shafts. That's why our replacement shafts are engineered and manufactured to meet the most rigorous welding specifications, and meticulously constructed to withstand the demanding stress loads encountered in diverse operational scenarios. With our deep understanding of process loads, you can expect the highest standards of reliability - ensuring maximum productivity.

## Prioritizing Reliability - Eliminate Risk

Reliability is paramount. Gambling with the quality of your replacement shafts could lead to undesirable consequences, hindering your output and incurring lost production. SPX FLOW's OEM precision shaft replacement program helps you eliminate these risks. Our unwavering commitment to excellence guarantees that each shaft we deliver meets the strictest quality benchmarks.

Contact us today for improved efficiency, reduced lead times, and the quality you need in precision shaft replacements.
